## Juice Concentrate Lot Numbers

Specifies the exact day the inventory begins to build from raw fruit inventory into juice concentrate in a Concentrate tank.

### Fruit Variety:

A two letter code:

Examples - Peach = PE  
Plum = PL  
Strawberry = ST  
Pomegranate = PO

### Julian Date:

This is a 3 digit field. Julian date counts up from 1 (January 1) and ends at 365 (366 for leap year) (December 31).

Examples - January 1 = 001  
February 18 = 049

### Year:

This is the last digit of the current year.

**Example: PE0239**

Peach Concentrate that had begun to build as of January 23, 2009 (takes into account Leap Year).

**Notes: Organic product has ORG added prior to the first of the code. Juices have a J added after the Fruit Variety code. Pails have a P at the end of the code.**
